The Australian Physiotherapy Association (APA) is the peak body representing the interests of Australian physiotherapists and their patients.

The APA website is mobile responsive and provides an easy-to-navigate experience to all users and seeks to further engage our members and other APA stakeholders on a digital platform.

Our website brings in over 283K visits per month.

Our audience and your business

The APA website **www.australian.physio** features navigation paths and content aimed at unique audiences with its primary market being APA members, physiotherapists and other health professionals. Its secondary market includes government bodies, media and partners.

The APA consumer website **www.choose.physio** is a dedicated channel that promotes awareness of physiotherapy and the conditions physios can treat.

These unique markets open up opportunities for advertisers to choose their intended audience and deliver targeted advertising.
