HIGHLIGHTS FROM THE 2025 EVENT

THE VALUE OF PHYSIOTHERAPY IN AUSTRALIA

Physiotherapy plays a crucial role in Australia's healthcare system. It is one of the largest allied health industries and continues to grow rapidly. Physiotherapists help patients recover from injury, manage disease and improve their wellbeing. The profession also supports a burgeoning workforce.

In 2025 there were 50,328 physiotherapists registered with the Physiotherapy Board of Australia, with many more workers in supporting employment. A strong pipeline of students studying physiotherapy will ensure the sector continues to meet future demand. Treatments by physiotherapists deliver both health and economic benefits. Interventions are clinically effective and deliver net economic benefits, with quality of life improvements exceeding treatment costs.
